NOTE

Closepet - *Dated* 7th April 1920

1+9109 S-CIT

General Secretary:

While at Dodballapur on the 5th, the Municipal Councillors and the towns people represented to me that they had been experiencing for years considerable difficulty for drinking water, that the people had contributed a sum of Rs13,000 in 1914 towards a satisfactory and permanent scheme of water-supply and that a suitable scheme might be worked out A suggestion was made that the Konaghatta tank or Nagarakere might be improved and reserved for purposes of water-supply to the town but these tanks have a large catchkat and the reservation of the water in the tanks for water-supply will adversely affect the ryots holding lands under them It was elicited that various schemes for supply of water by gravitation were tried and found unsuitable and that an attempt was now being made by the Department of Industries to put down a bore hole The bore hole has been sunk to a depth of 150 feet and it is expected that if it is sunk to a depth of 200 feet, it may be possible to tap a sufficient quantity of water It strikes me that the only solution of this problem lies in the sinking of tube wells in 3 or 4 places as any other scheme will either affect the ryots or will be beyond the resources of the Municipal Council I have told the people that the result of the present attempt to put down some bore holes will be watched and that if it is not possible to tap sufficient quantity of water from these wells,

33) Govt ~~of~~ stated that the present modified estimate
for the water supply is for Rs 40 200, and that deducting
the amount of Rs 10000 spent on the sinking of three wells,
the balance of the estimate would be Rs 30 200 the
ruler have agreed to pay Rs 15,100 out of the water
supply fund aggregating to Rs 66,779-12-7, and they request
that the other half of the amount viz Rs 15 100 may
be borne by Govt the dep Govt recommends the
request sympathetic consideration of the request from the Govt

Doddaballapur water supply Scheme —

General and Revenue Secretariat | 2nd File No 308 of 1929 | Cr. f, 1360 | [App F III—2

Serial No

for Rs 15,100 by Govt

34) In view the present commitments, it does not appear possible for Govt to contribute anything towards the ~~water~~ water supply Scheme this year, and the question of contribution will have to be considered in the future, subject to availability of funds ~~In the case of Anekal and Doddaballapur supplies, the whole cost of the scheme may perhaps be borne by the Govt in the first instance~~

35) Held for orders until receipt of Govt Orders in the matter

Sec 26/9 26/9 36) Out of the provision of Rs 25,000 for Water supply schemes in the budget, about Rs 3500 have been paid towards the Govt contribution to the Tiptur Water supply Rs 500 have been sanctioned for the Davangere Water supply Regarding the distribution of the balance, proposals have been called for from the Sanitary Engineer, Bureau of Sanl Engineering The said balance hardly suffices for the existing commitments such as the Kolar Water Supply Improvement & it is doubtful if anything can be spared out of it for the Doddaballapur Scheme ~~The Sanitary Engineer may be consulted~~ The Sanl Engineer may perhaps be consulted

MC 24/1/33 AH

H Secy) 5/1/33

4) The proposal is to sanction the Scheme costing about 22 000 Rs. financed to the extent of 16 000 from the funds of the MC and the balance being the Cost of pipes to be given by the Iron works being paid by Govt as an Annual instalments for the same from there is no Hotbath Whether the Municipality is able to meet the maintenance charges of the Water Supply which will be over Rs 2895 Rs per annum has not been stated This is necessary before the scheme is to be taken up.

05) The proposal to waive the Estd & Tools Plant charges is not technically Correct.

66) The manner in which the Cost of this Scheme has been changed from time to time by the Sanitary Bureau and by the Director of Industries is rather disconcerting The file started with a modest proposal of a loan of Rs 2700 & on Enquiry as to how it reached the figure went upto 10,000 Rs and then to 32,154, Rs 32,576 & Rs 49,950. Now it has been reduced to Rs 22,300 In these days of financial stress, it is necessary that only essential items should be included in an estimate and that it should be as low as possible.

Rs 20,000 - 83%

WD 0246—GPB—15 000—22 8-32

72 Discussed with the DC & the Sanitary Executive Engineer -

73 The estimate is Rs 22,800 + plus Rs 4104 (18%) for tools & plant

74 The mfg Engs attend Hqrs at once on their completion Despatch Rs 3000 immediately & the balance by the early steps of the Bharavati monsoon & obtain the tools & plant thereafter. The estimate may be scanned & work can proceed on this basis

75 Re maintenance charges - the estimate of Rs 8695 p.a. is on the basis of a larger installation & there are now the engines & pumps the consumption will be much less than anticipated & the maintenance estimate & the early electric current will be proportionately reduced. The mfg engineers estimate a saving of Rs 4000 as the pumping is by electricity. The DC considers that having regard to the existing normal income over normal expenditure of the mfg as disclosed in the last budget & the probable receipts from the levy of a water tax there will be sufficient to meet the maintenance expenditure (Even after making allowance for the loss of interest on the Rs 16000 which will now be saved up) -

General *Secretary*
to the Government of Mysore
Bangalore

SIR

Subject —

I have the honour to state that a watersupply scheme for Doddaballapur Town has been prepared by the Department of Industries & Commerce in Mysore, Bangalore, the estimated cost being Rs 5200/ Three borewells have been so far drilled at Doddaballapur by the Industries Department, of which the first two wells have been completed and the third is in progress The cost incurred on these two borewells is Rs 1640-14-8 and this is debited to the Municipal funds and the tube wells grant as per details given in letter No D3-1000/28-29 dated 28-5-1931 from the Director of Industries and Commerce in Mysore (Copy enclosed) The Municipality has a Water Supply fund, subscribed by the public, amounting to Rs 13000/- invested in Government securities and the Municipal quota for the above borewells, is being met out of the accumulated interest thereon The interest that accrues on this investment is Rs 810/- per annum, paid in two half yearly investments (Postal Cert, Rebate 2%)

The Municipal Council have proposed to ask for a loan from the Government , free of interest, for financing the Water supply scheme estimated at Rs 5200/-, and propose to discharge the loan by adjusting the interest that accrues on the water supply fund, stated above In this connection, I may add that out of the accumulated interest thereon they have already placed a sum of Rs 2500/- at the disposal of the Industries Department for supplying pipes, pumps etc and only a loan of Rs 2700/- is sufficient for financing the scheme The Council also propose to have a fourth borewell drilled at the cost of Government and the Director

P.T.O.

Letter No D3 1060/28-29 dated 28th May 1931 from the Director of Industries & Commerce in Mysore, to the Deputy Commissioner, Bangalore District

Subject - Water Supply Scheme - Doddaballapur Town

With reference to the correspondence ending with your letter No C2 5129/29-30 dated 16th May 1931, I have the honour to furnish the information as called for therein -

Sir

Subject —

In continuation of this office D O No C2-5139/29-30, reporting the stage in which the water supply scheme at Dodballapur was pending, I have the honour to state that the President, Dodballapur Municipal Council has since reported that the Director of Industries and Commerce in Mysore has further revised the water supply scheme for supply of water available in the four bore wells, the cost being estimated at Rs 32154/- The bore wells are anticipated to yield about fifty thousand gallons per day which would suffice the present population of the town The Municipal Council have approved of the scheme and agreed to bear half the cost, the other half being borne by Government As the details of the scheme and estimates and plans are prepared in the Industries Department, I have requested the Director of Industries and Commerce in Mysore to furnish the same to this office for further action The financial capacity of the Municipal Council to meet their share of cost of the scheme and the recurring charges every year is being investigated at present I shall submit detailed proposals in the matter in due course

SIR Subject - Dodballapur Town Water Supply

I have the honour to forward herewith for favour of perusal and orders of Government Sanitary Engineer's Letter No 1145 dated 27th April 1932 with connected papers, in respect of drinking water supply to Doddaballapur Town from bore wells

From the records it will be seen that the scheme costs Rs 49,950/- exclusion of the bores which have already been sunk It is understood the town Municipal Council can find about Rs 10,000 If Government are pleased to make a grant towards balance required, it will be possible to push the scheme through to completion at an early date

I have the honour to be

ABSTRACT

In connection with the proposed water supply scheme for Doddaballapura town, he encloses a copy of the proceedings of a meeting held by the Municipal Council on 26 7 32 for removal of doubts that the Council have agreed to contribute Rs 15000/- towards the realization of the Scheme. He requests that Government may be pleased to sanction the rest of the amount required for the scheme as per revised estimate & put the works on hand early with a view to obviate scarcity of water in the town. GENERAL SECRETARY 1 SEP 1932 No. 2959

SIR,

Subject —

With reference to correspondence ending with your letter No L 8050/Ml 308-29-86 dated 1-6-1932 forwarding for reference and retransmission the revised estimates for the water supply scheme of Dodballapur town with opinion regarding the financial capacity of the Municipal Council, I have the honour to state as follows --

The revised estimates which were forwarded to the President Municipal Council, Dodballapur were placed before the Municipal Council at their meeting held on 26-7-1932 while submitting a copy of the Municipal Council's resolution, the President in his report dated 1-8-1932 states that the present modified estimate is for Rs 40,200/-, that deducting the amount of Rs 10,000/- spent on the sinking of bore wells, the balance of the estimate would be Rs 30200/- and that the Municipal Council have agreed to pay Rs 15,100/- out of their separate water supply funds aggregating Rs 16779-12-7 The Municipal Council request that the other half of the amount viz , Rs 15,100/- may be borne by Government A copy of the Municipal Council's resolution in the matter is enclosed Their request for a grant of Rs 15100/- is deserving of sympathetic consideration of Government

With regard to their financial condition to meet the cost of the scheme the details of their water supply funds on hand are reported to be as noted below --

1	Amount subscribed by the residents of Dodballapur and invested in State Loan Bonds	Rs 13000-0-0
2	Balance of interest accrued on the above and deposited in Savings Bank a[redacted] Rs 439	1644-5-7

3	Half yearly interest on the State Loan Bonds due in October 1932	405- 1- 0
4	Savings Bank Interest on Rs 1644/- in Savings Bank account No 439 for 31-32	100- 0- 0
5	Amount due by Government towards the sinking of the 4th Bore well - about	800- 0- 0
6	Value of pipes etc , got by the Director of Industries and Commerce as per water supply Scheme	828- 6- 0
	Total	16779-12- 7

This amount of Rs 16779/- is reported to be available and has been kept apart for meeting the cost of their water supply scheme It does not form part of the Municipal funds

The revised estimates and plans together with Municipal President's report No 130/32-33 dated 1-8-1932 and the Council's resolution are enclosed for favour of reference and return

I have the honor to be,
Sir,
Your most obedient servant,

S Ramaswamy

No. 6 9 4

Dear Sir,

Re Dodballapur water supply

Proposals for the supply of drinking water to Dodballapur town have been drawn up and estimates prepared but because of the commitments made by Government for the present grant for water supplies, the scheme has been postponed The dire necessity for potable drinking water at Dodballapur is well recognised by all concerned and every effort should be made to relieve the present situation The Municipality have spent about Rs 10,000/ on borewells and these are now lying idle for want of a suitable scheme incorporating them

The Municipality realised the need for a water supply system and have set aside a sum of Rs 16,000/- for the scheme and have asked Government aid to meet the balance of the estimate As a Government grant is now impossible, the estimate has been modified and reduced to a total of Rs 22,800/- without including the 18% Establishment, Tools and Plant Charges (A copy of the estimate is enclosed) The Municipality in their resolution dated 30th August 1932 (A copy of which is enclosed for information) have agreed to place a sum of Rs 16,000/- at the disposal of the Bureau of Sanitary Engineering to take up the work of water supply which is badly wanted

This scheme may be taken up immediately providing - Government agree to loan the necessary cast iron piping for the scheme from the Mysore Iron Works which amount to about Rs 6,048/- and also to waive the 18% Establishment, Tools and Plant Charges as their contribution to the scheme

It is urgently requested that the above proposals be sanctioned by Government immediately so that the work may be taken up without delay

Government file No U O 46/L S G of 32 33 dated 27th September 1932 is returned herewith

Sincerely yours,

J J Mieldazis,

The Comptroller to the Government of Mysore,
Bangalore.

With reference to your letter No D.I 773 dated the 25th February 1933, I am directed to state that the G.O No .5241-4/ I 308-29-31 dated 7th February 1933 sanctioning an estimate for Rs.22,800/- for water supply to Doddaballa pur Town and - waiving the levy of establishment and tools and plant charges as a special case will be communicated separately through the Finance Department.

The sum of Rs.6048/- referred to in para 2 of the above Government xxxx Order as being the cost of the Cast Iron pipes will be treated as a Government grant for the work in question. The difference of Rs.752/- between the sanctioned estimate and the amount actually provided for in the above Government Order referred to in your letter under reply will have to be paid by the Doddaballapur Municipal Council and the Deputy Commissioner, Bangalore District has been requested to take necessary action to have this amount also placed at the disposal of the Sanitary Engineer, Bureau of Sanitary Engineering.

I have the honour to be,
Sir,
Your most obedient servant,
Sd/- K Ramgadar
General Secretary to Government.

To

.S.

Memo No L 6561-3 Bangalore, dated 8th April 1933

10
